Key question	Content	R	A	G			
A growing percentage of the world's population lives in urban areas.	The global pattern of urban change						
	Urban trends in different parts of the world including HICs and LICs						
	Factors affecting the rate of urbanisation – migration (push–pull theory), natural increase						
	The emergence of megacities.						
Urban growth creates opportunities and challenges for cities in LICs and NEEs.	A case study of a major city in an LIC or NEE to illustrate:	<ul style="list-style-type: none"> the location and importance of the city, regionally, nationally and internationally causes of growth: natural increase and migration how urban growth has created opportunities: <ul style="list-style-type: none"> social: access to services – health and education; access to resources – water supply, energy economic: how urban industrial areas can be a stimulus for economic development how urban growth has created challenges: <ul style="list-style-type: none"> managing urban growth – slums, squatter settlements providing clean water, sanitation systems and energy providing access to services – health and education reducing unemployment and crime managing environmental issues – waste disposal, air and water pollution, traffic congestion. 					
		An example of how urban planning is improving the quality of life for the urban poor.					
		Overview of the distribution of population and the major cities in the UK. A case study of a major city in the UK to illustrate:	<ul style="list-style-type: none"> the location and importance of the city in the UK and the wider world impacts of national and international migration on the growth and character of the city how urban change has created opportunities: <ul style="list-style-type: none"> social and economic: cultural mix, recreation and entertainment, employment, integrated transport systems environmental: urban greening how urban change has created challenges: <ul style="list-style-type: none"> social and economic: urban deprivation, inequalities in housing, education, health and employment environmental: dereliction, building on brownfield and greenfield sites, waste disposal The impact of urban sprawl on the rural–urban fringe, and the growth of commuter settlements. 				
			An example of an urban regeneration project to show:	<ul style="list-style-type: none"> reasons why the area needed regeneration The main features of the project. 			
				Features of sustainable urban living: <ul style="list-style-type: none"> water and energy conservation waste recycling creating green space. 			
			Urban sustainability requires management of resources and transport.	How urban transport strategies are used to reduce traffic congestion.			

R = RED 'I missed the lesson and I have no notes on it at all' - attend enrichment to copy up the notes.

A = AMBER 'I have the notes in my book, I just don't really get it' - ask now and attend enrichment to have 1:1 explanation.

G = GREEN 'I remember this, I have good notes, I perhaps need to remind myself about the facts' - create a flash card to help you revise this.

FREE PARKING! 	Describe the leisure and recreation opportunities in Sheffield	Describe the leisure and recreation opportunities in Sheffield	Explain the impact of migration on Sheffield	Chance! 	How has Sheffield's economy changed over time?	Keyword challenge! Urban sprawl. 	How have they improved the conditions for the whole city?	How have they improved the favelas?	Community Chest. 	What issues are there in the favelas?	WRONG ROOM 	How have there been economic development in Rio?	What are economic activities occur in Rio? Community Chest. 	Why is Rio important?	Keyword challenge! Urban greening 	Go back to the start! 	Where are most new mega cities located?	Chance! 	What are the two causes of urbanisation?	GO TO JAIL! 	How does integrated transport reduce traffic congestion?	Community Chest. 	How is Sheffield's transport system integrated?	Why does rural urban fringe occur on the development?	Keyword challenge! Deprivation 	Describe how Sheffield manages its Waste and disadvantages What are the advantages and disadvantages of building on greenfield?	Chance! 	Inequalities within Sheffield Describe the Inequalities within Sheffield
												What were the positives and negatives of the Park Hill flats regeneration?	Community Chest. 	What is sustainability?	Keyword challenge! Commuter settlement 	Go back to free parking! 	How can urban development conserve water and energy?	Chance! 	Explain how creating green spaces is sustainable?	GO! 								

When you land on a question you need to answer it. Each you get right you earn a point - if you get it wrong you go to the 'wrong room - jail'.

To get out of jail you either roll a six or if you can answer a question someone has got wrong you swap places (you go to their square and they go to jail).

The person with the most points wins.

Revision Strategies

Revision strategy 2

- Read through your book and highlight 20 key words, can you fit them on an A-Z

Revision strategy 3

- Read through your book and create a spider diagram for Sheffield and Rio

Revision strategy 4

- Read through your book and design a quiz for others with an answer sheet

Revision strategy 1

- Reread your notes and summarise in 10 key points the bits you RAG'd as RED

Revision strategy 5

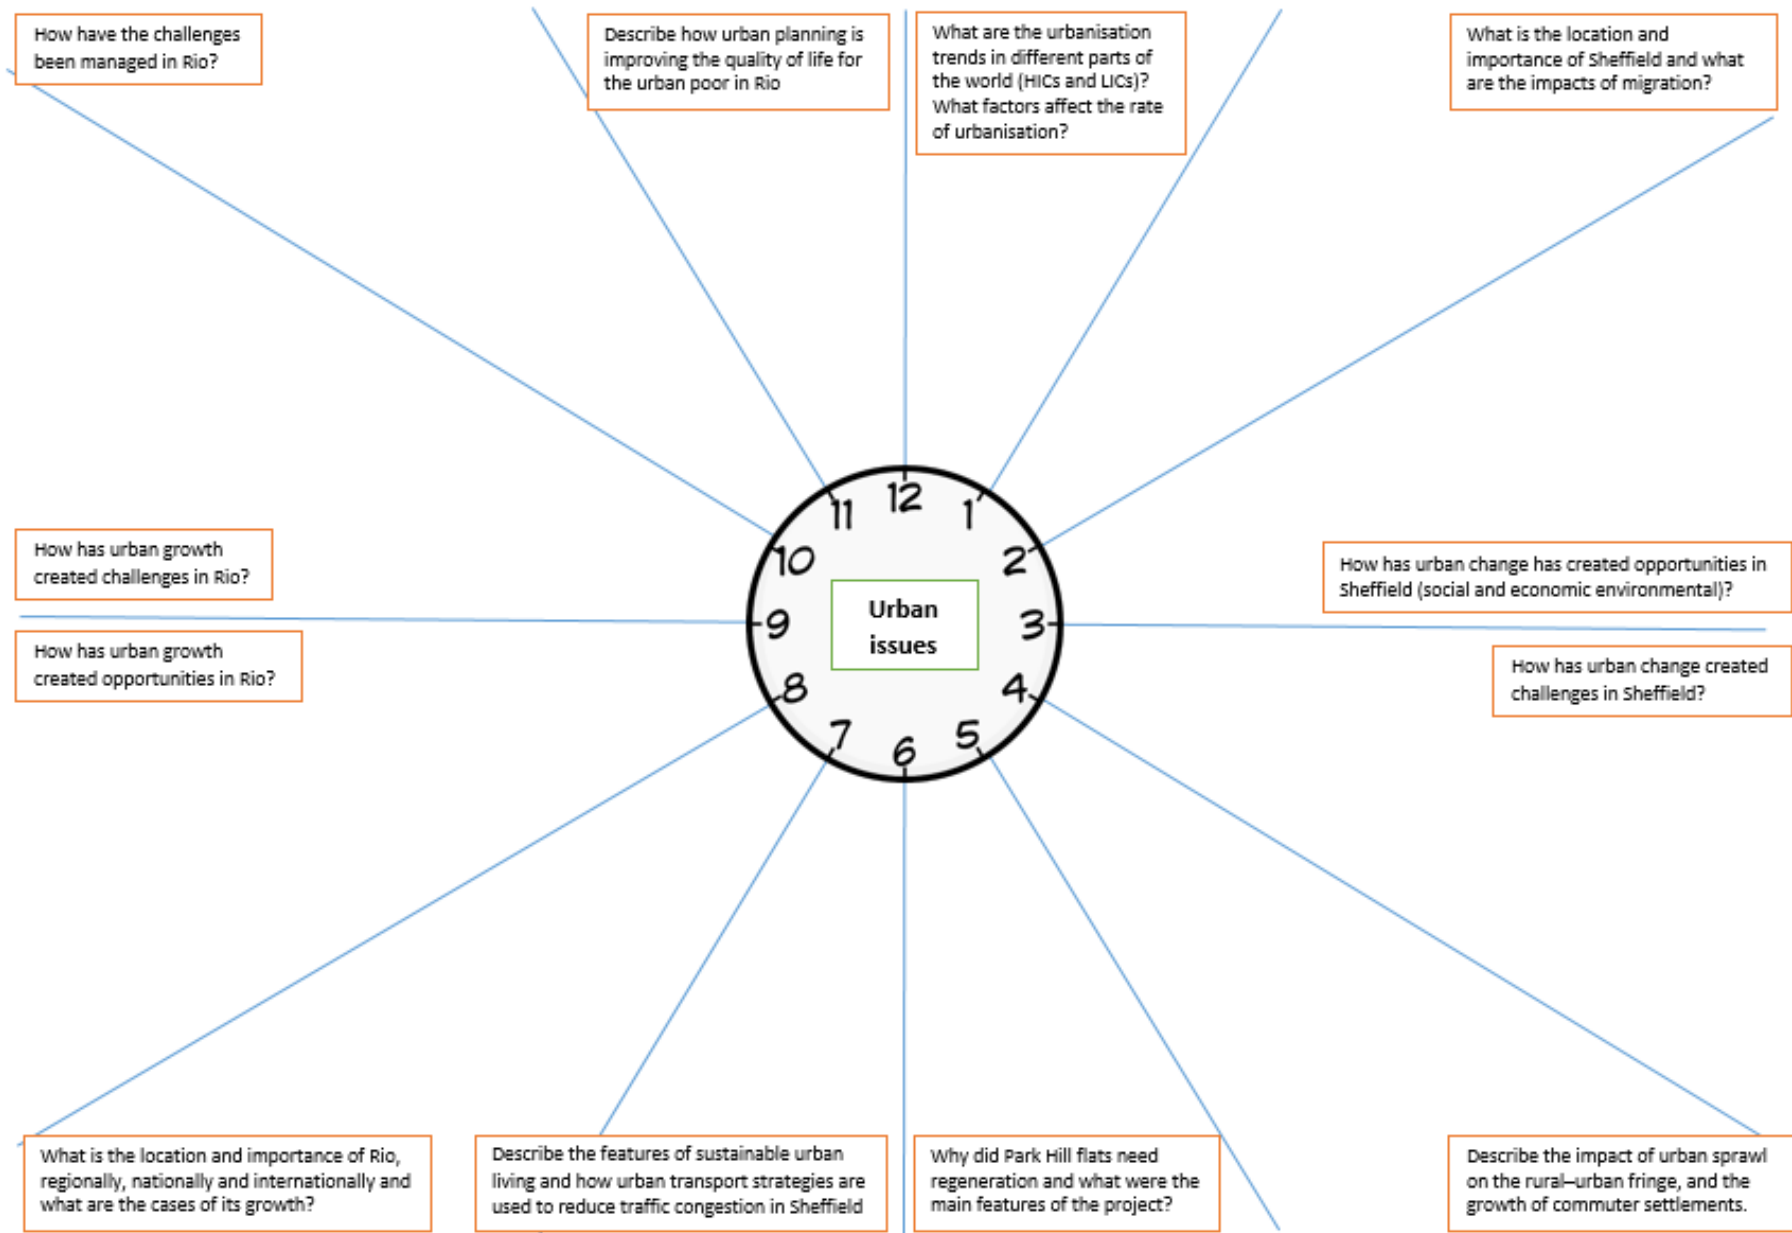

- Read through your revision book and highlight all the facts in green and key terms in yellow
